PROFESSIONAL SUMMARY

Backend Developer with experience building and optimizing production systems, including large-scale e-commerce platforms in the printing domain and AI-driven SaaS applications. Strong focus on API design, performance optimization, and system reliability, with hands-on experience across Laravel and event-driven PHP systems.

PROFESSIONAL EXPERIENCE

Backend Developer — Elavi

Mar 2025 – Present

SaaS Platform (AI Workflows)

- Contributed to building a multi-module AI SaaS platform for workflow automation across business domains
- Designed backend services for content generation, analytics, and automation workflows
- Developed workflow-based processing for asynchronous AI tasks and data pipelines
- Built REST APIs and webhook systems for integrations and workflow execution
- Designed database schemas and managed modular data (content, workflows, analytics)

E-commerce Platforms (Printing Domain)

- Maintained and optimized backend systems for large-scale e-commerce platforms
- Investigated and resolved production issues across orders, invoicing, and payments
- Improved performance via query optimization, batch processing, and reduced API calls
- Rebuilt the invoice generation service, reducing processing time from ~15s to ~3s
- Integrated third-party services including OAuth and Peppol e-invoicing
- Improved system observability using Grafana, Loki, and Prometheus, enabling faster issue diagnosis and performance optimization

Backend Developer (Internship) — BlindSpot

Mar 2024 – Aug 2024

- Contributed to backend development using Spring Boot and REST APIs
- Worked with MySQL, PostgreSQL, and MongoDB, contributing to data modeling

TECHNICAL SKILLS

Languages:	PHP, Java
Backend:	Laravel, Spring Boot, REST APIs, GraphQL
Architecture:	Microservices, Domain-Driven Design, Event-driven systems
Databases:	MySQL, PostgreSQL, MongoDB, Redis
Tools:	Docker, Jenkins, CI/CD, Grafana, Loki, Prometheus

EDUCATION

Master – Big Data & Cloud Computing (In Progress)

ENSET Mohammedia

Licence – Web & Mobile Development

EST Casablanca

Technicien Spécialisé – Full Stack

ISTA
